### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8, 10,12-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Winckler' 157.

See column 22, lines 55-67, column 23, lines 1-35.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 9, 11, 14-15, 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Winckler'157.

The applied reference is teaching all elements of claimed invention except for limitations of claims 9 (roughness Ra), claim 11 (layer on the belt member), claim 14 (water absorbency), claim 15 (surface glossiness), claim 18 (electrophotographic material). However, it would have been obvious to one having ordinary skill in the art at the time of the invention to vary values such as in the above claims since it would optimize process conditions and improve the properties of the resulting product. Also, it would have been obvious to use a paper coated product of Winckler'157 as an electrophotographic base material.

The arguments and remarks filed by Applicants in their last response have been fully considered. Claims, however, remain unpatentable in view of the new grounds of rejections.
